RE: Resource Requests to the EOC

Clark County Emergency Management Agency (EMA) is managing resources on behalf of the Clark County Combined Health District (CCCHD). This includes; any cache we had on hand, any Strategic National Stockpile, any purchased items, and any community donated resources.

Effective immediately, we are asking any department or agency wanting to request a resource to complete an online form in order to process requests. No other form of request (email, phone call, etc.) will be accepted either by EMA or CCCHD. A separate form will need to be filled out for EACH item of request.

Please understand supplies are limited and prioritized. You may not be able to receive everything you are requesting. Personnel from EMA will be in contact with you if any adjustments are required. At this time we are able to make deliveries once orders are filled.

**NOTE:** First responder departments and long-term care agencies will need to report the current inventory stock on M/W/F by 5PM to be eligible for PPE.
